#### **Holford Gas Storage Project, Byley, Cheshire.**

The project completed for Holford Gas Storage Ltd / E-on UK / Costain (COGAP) involved the construction of all the civils works at the natural gas storage facility in Cheshire.

This included groundworks and site drainage followed by the construction of all reinforced concrete foundations, a structural steel control building, associated roads and external works.

The project also involved specialist piling works carried out by our subsidiary companies SPI Ltd and Tritech Piling.
