

## CULVERT REHABILITATION SCHEME HIGHER DUNSCAR, BOLTON

Client:

**Bolton MBC**

Summary:

Highway flooding alleviation scheme. Reinforcement of culverts.

### PROJECT DETAILS

Construction of new culverts by Trenchless Guided Auger Bore methods utilising Akkerman Guided Auger System.

Two 500mm ID drives from common caisson drive shaft, 33m under very busy A666 Blackburn Road and 17m under access road to residential estate. Open cut culvert between downstream MH and watercourse.

Inlet structure in private garden and outfall structure on open watercourse.
