

KEARSLEY STATION CAR PARK & ACCESS ROAD, PHASES 1 & 2.

Client:

Bolton MBC

Summary:

Construction of a Car Park adjacent to Kearsley Station and the Improvement of the access via Station Road.

PROJECT DETAILS

Works included earthworks, drainage, kerbing, full carriageway and footway construction, timber crib retaining wall, fencing in various materials, vehicular safety barriers, landscaping and reinstatements.

The works included the reconstruction of carriageway and footways in front of domestic properties along Station Road and the making up of the un-made section of Station Road. Access to the station and properties was maintained at all times.
