

UPGRADE ROUNDABOUT AT TWIST LANE & ATHERLEIGH WAY NEAR LEIGH, GREATER MANCHESTER

Client:

Wigan MBC

Summary:

Works to upgrade existing roundabout to a signalled junction to provide congestion relief.

PROJECT DETAILS

Works were undertaken at a very busy and congested road junction adjacent to a large retail park on the outskirts of Leigh. Works included site clearance, excavation, filling to new levels & layout, breaking out existing carriageway, timber post & rail fencing/pedestrian guardrailling, ducting & drainage, kerbing & edgings, carriageway & footway construction, traffic signals & junction boxes, lining & signing, street lighting, soft landscaping, all associated traffic and pedestrian management.
