

HARD LANDSCAPING & PLANTING MANCHESTER UNIVERSITY, LIME GROVE COURTYARD

Client:

University of Manchester

Summary:

Creation of break-out and social space in two unused enclosed poor quality courtyards at the Faculty of Arts.

PROJECT DETAILS

High quality hard landscaping and planting in two fully enclosed courtyards with severely restricted access. Excavation of existing poor quality tarmac, drainage & ducting, construction of access ramp and stairs, feature landscaping including paving in a variety of natural stone forming 'islands', stainless steel rope facade, seating and planters in bespoke steel and hardwood, bespoke lighting scheme and planting with bamboo, birch trees & climbers.
