

CABLE TRENCH AT THORNTON GATE, CLEVELEYS

Client:

Birse Coastal

Summary: We were asked to Sheet Pile a temporary cable trench on the beach at Thornton Cleveleys, Lancashire

The twins (Leader Rigs) Piling in tandem

PROJECT DETAILS

Our part of the project involved temporary sheet piling to install a cofferdam, in the inter-tidal zone, for new ducting for an offshore cable. This was part of the Walney 2 Windfarms project.

We installed appx 176nr L605 at 13m under Tidal Conditions with our ABI Telescopic Leader Rigs. We had two working in tandem on site which were the 13/16 and 14/17

The contract took 2 weeks to complete with 2 visits, 1 to install and 1 to extract, with the contract value of £185K
