

LIME MODIFICATION FOR TESCO SUPERSTORE, HATTERSLEY

Client:

**Moorhead Excavations
for Tesco**

Summary:

Tesco Superstore, Hattersley

WR2500SK Integrated Mixer

PROJECT DETAILS

LIME MODIFICATION WORKS

A new Tesco Superstore was being built within the town with Moorhead Excavations carrying out all of the earthworks and civil engineering. CSSL were contacted by Moorhead Excavations, who have successfully worked together on numerous occasions, and awarded the contract to carry out Bulk Modification works to the lower layer and a 300mm Capping Replacement to the surface with Moorhead's placing a Type 1 Sub-Base directly on top of this.

Equipment used by Combined Soil Stabilisation

Using a TerraGator Spreader and a WR2500SK Integrated Mixer, CSSL completed the works on time with the required specifications achieved.
